

Julien Laurendeau

Institute of Mathematics, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
July 2026

✉ julien.laurendeau@epfl.ch • 🌐 julienl266.github.io

Education

EPFL <i>Ph.D. in Mathematics</i> Advisor: Mats Stensrud	Lausanne, Switzerland 2023–now
ETH Zurich <i>MSc with distinction in Mathematics</i>	Zurich, Switzerland 2021–2023
EPFL <i>BSc in Mathematics</i>	Lausanne, Switzerland 2018–2021

Research

Publications

Improved Bounds and Inference on Optimal Regimes
Journal of the American Statistical Association, 121(553), 561–573, 2026
with [Aaron Sarvet](#) and [Mats Stensrud](#)
Optimal regimes for algorithm-assisted human decision-making
Biometrika, Volume 111, Issue 4, December 2024
with [Mats Stensrud](#) and [Aaron Sarvet](#)
Optimal regimes with limited resources
arXiv:2403.19842, March 2024
with [Aaron Sarvet](#) and [Mats Stensrud](#)

Honors and Awards

Early Career poster competition winner at the European Causal Inference Meeting 2026
Poster: “Finding treatment regimes with optimality guarantees of practical interest”

Teaching Experience

Head Teaching Assistant <i>Institute of Mathematics, EPFL</i> Randomization and Causation (Spring 2026) Causal Thinking (Fall 2025), Statistics for Mathematicians (Spring 2025), Causal Thinking (Fall 2024), Applied Biostatistics (Spring 2024), Probability and Statistics for Physicists (Fall 2023), Analysis II for Life Sciences (Spring 2023).	Lausanne, Switzerland 2023–2026
Teaching Assistant <i>Institute of Mathematics, EPFL</i> Analysis IV for Physicists (Spring 2021), Numerical Analysis (Spring 2021), Linear Algebra for the Cours de Mathématiques Spéciales (CMS) (Fall 2020).	Lausanne, Switzerland 2020–2021

Talks and Conferences

7th Meeting of the Institute of Mathematical Statistics Asia Pacific Rim Meeting (IMS-APRM) Hong Kong “New guarantees for optimal regimes in the presence of unmeasured confounding”, Invited talk Chinese University of Hong Kong	2026
European Causal Inference Meeting “Finding treatment regimes with optimality guarantees of practical interest”, Poster Oxford University	Oxford, United Kingdom 2026
Causal Machine Learning for the Social Sciences Workshop “Optimal sequential decision-making with initiation regimes”, Poster	Cambridge, United Kingdom 2026

Isaac Newton Institute for Mathematical Sciences	
Foundations of Causal Inference Workshop	Cambridge, United Kingdom
<i>"Optimal sequential decision-making with initiation regimes"</i> , Poster	2026
Isaac Newton Institute for Mathematical Sciences	
46th Annual Conference of the International Society for Clinical Biostatistics (ISCB)	Basel, Switzerland
<i>"Optimal sequential decision-making with initiation regimes"</i> , Contributed talk	2025
Biozentrum of University of Basel and Department of Biosystems Science and Engineering (D-BSSE) of ETH Zürich	
European Causal Inference Meeting	Ghent, Belgium
<i>"Optimal sequential decision-making with initiation regimes"</i> , Poster	2025
Ghent University	
Swiss Statistics Seminar	Bern, Switzerland
<i>"Optimal sequential decision-making with initiation regimes"</i> , Lightning talk and poster	2025
University of Bern	
Causal Inference in the Health Sciences Symposium	Zurich, Switzerland
<i>"Optimal sequential decision-making with initiation regimes"</i> , Contributed flash talk	2025
University of Zurich	
IMS International Conference on Statistics and Data Science	Nice, France
<i>"New guarantees for optimal regimes in the presence of unmeasured confounding"</i> , Contributed talk	2024
European Causal Inference Meeting	Copenhagen, Denmark
<i>"Improved bounds and inference on optimal regimes"</i> , Contributed talk	2024
University of Copenhagen	
Causal Inference in the Health Sciences Symposium	Lausanne, Switzerland
<i>"Improved bounds and inference on optimal regimes"</i> , Poster	2024
EPFL	

Work Experience

Research Assistant	Zurich, Switzerland
<i>Faculty of Macroeconomics, ETH Zurich</i>	2022-2023
Advisor: Hans Gersbach.	
Research intern	Lausanne, Switzerland
<i>Institute of Mathematics, EPFL</i>	2022
Chair of Biostatistics.	
Advisor: Mats J. Stensrud.	

Service

Master Thesis co-supervision	Lausanne, Switzerland
<i>Institute of Mathematics, EPFL</i>	2024-2026
Monotonicity and the superoptimal regime (Spring 2026),	
Violations of the Single Unit Treatment Value assumption (Fall 2024).	
Semester project co-supervision	Lausanne, Switzerland
<i>Institute of Mathematics, EPFL</i>	2024-2025
Testing for effect heterogeneity in causal inference (Fall 2025),	
Superoptimal Markov Decision Processes in Games (Spring 2025),	
Time-varying optimal regimes (Spring 2024).	
Peer Review	Since 2024
Journal of the American Statistical Association (JASA), Journal of Machine Learning Research (JMLR).
